

Historical co-movement: 2018-2023

Regional food-price inflation co-movement

Supplied FAO cross-country indicators, 2018-2023

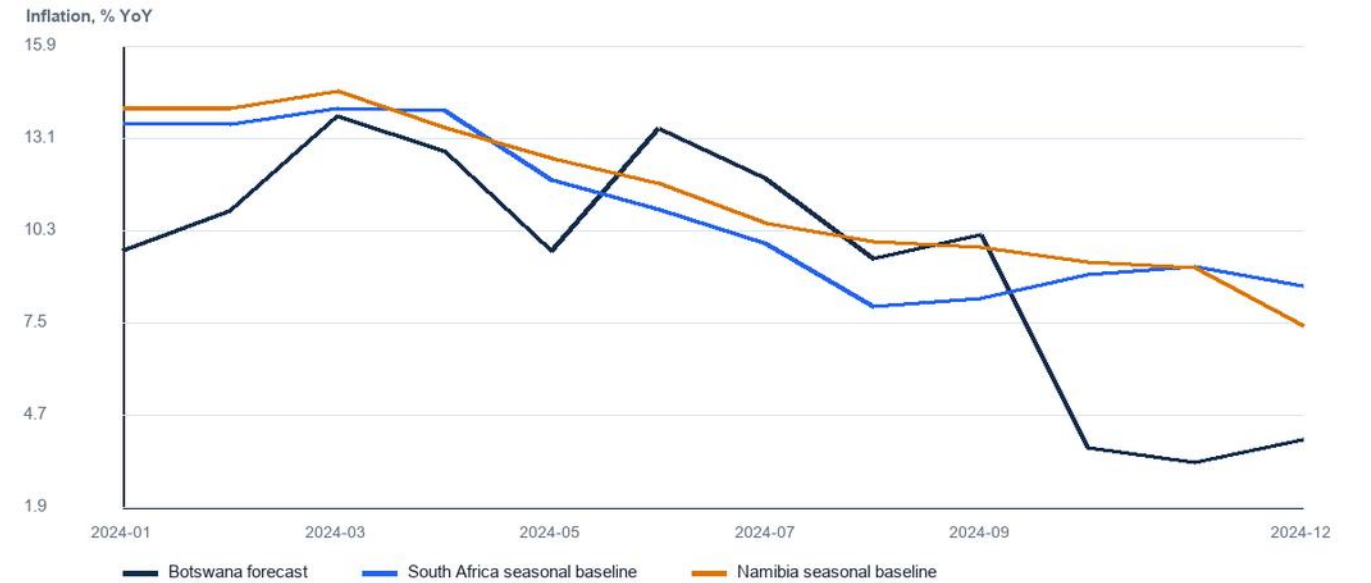

Lines show food-price inflation rates from the supplied cross-country FAO indicators. Shared shocks and divergent local regimes are both visible.

Forward pressure-proxy projection: 2024

2024 regional price-pressure projection

Botswana model forecast; comparison countries use 2023 seasonal baselines

Botswana uses the selected competition forecast; comparison-country lines are seasonal baselines. These are price-pressure proxies, not direct human-capital outcome forecasts.
